

MILK

ULTRA MILK

Milk has always been valued for its balanced goodness of protein, calcium, milk fat, carbohydrates, vitamins and minerals. It contains all the essential nourishment needed by growing children.

Milk is also a source of nourishment and energy for adults. Ultra Milk is sterilized by heating it at 140°C for 4-5 seconds. By Using Ultra High Temperature (UHT) process, the Nutritional values are preserved while all bacteria are destroyed.

By packed in a germ-free cartonpacks, long storage life is ensured without refrigeration or the use of preservatives. Ultra Milk can be used exactly as you would use fresh milk for making ice cream, yoghurt, or your other favourite recipes.

Ultra Milk is available in Full Cream, Chocolate Flavor, Strawberry Flavor and Mocca Flavor.

For those who are in diet, Ultra Milk is also available in Low Fat Hi-Calcium.
