

PT. EKA TIMUR RAYA

Products Catalog

ETIRA "Canning Mushrooms"

PT. EKA TIMUR RAYA known as ETIRA, established in 1999, is one of the grower and marketer of fresh and processed mushrooms in Indonesia. The site of the Company in East Java, Pasuruan Regency.

ETIRA mushrooms is cultivated in the "Mount Bromo" region at an altitude of more than 1800 above sea level. Under the supervision of experts, ETIRA produces high quality fresh mushrooms which are hand-picked, processed and packed on the same day, ensuring optimum freshness and flavour.

Direct acces to International Sea Port (Tanjung-Perak Surabaya) is by high way needs approximately two hours by car as well as to Surabaya International Airport.

"Etira" mushroom can be served directly or lightly cooked on its own or mixed with various dishes such as fish, meat, poultry etc, as well as sauces and soups, according to preference.

Composting

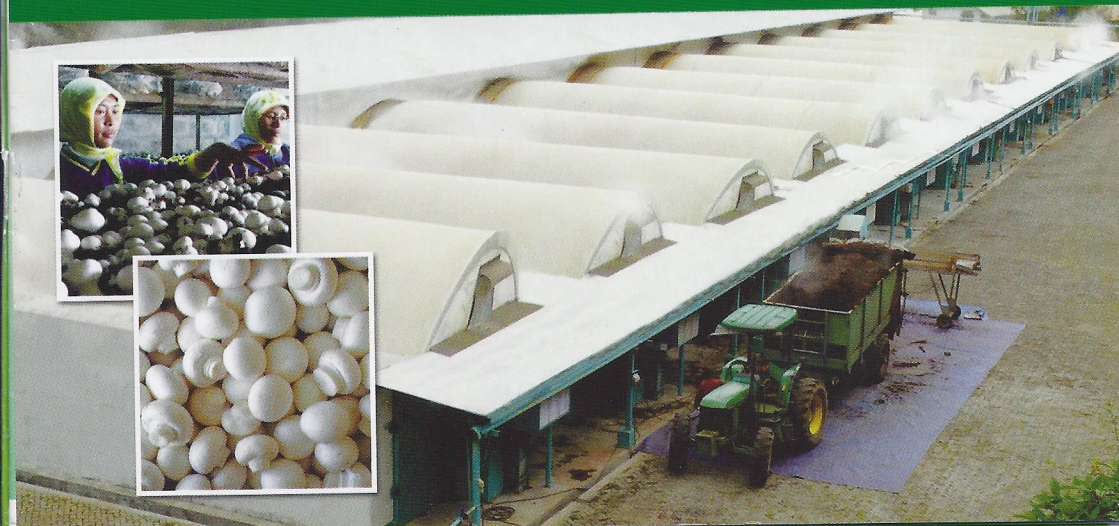

Etira composting technique has been adapted and adjusted to our unique environment conditions to ensure the conversion of raw materials into a highly specific medium for mushroom growing.

Our development on composting process has prospected to reach the best system to ensure highest yield as well as a safe and environment friendly conditions.

Under supervision of highly qualified personel, cultivation is carried out absorbing strict hygiene of sanitation measures.

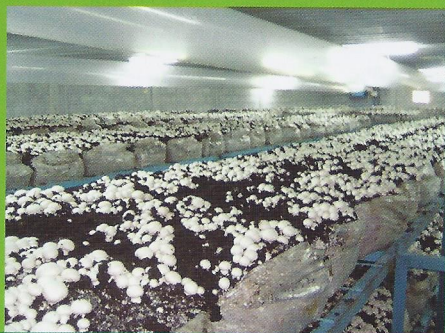

This and the "one touch" picking technique will guarantee the quality of fresh mushroom delivered to our processing facility.

Cultivation

Processing

Our processing capability has the capacity to process about 25,000 Kg of fresh mushroom per day into various styles and sizes, in cans and/or glass jars.

Quality Assurance

Etira quality assurance applies the biggest standard in which every mushroom is examined and guaranteed that all delivered to its customers are the finest ones.

We reach the international market and ensure all output product to be complied with international standards, such as HACCP and FDA regulations are strictly observed, implemented and complied with.

We always welcome to have the opportunity to work together with our clients to determine the right style and size of mushroom for a particular purpose, or to create a special blend of mushroom as desired.

Product Specification

PIECES AND STEM MUSHROOMS

| | | | | |
|-------------------------------------|----------------------|---|----------------------|-----------|
| Product Description | | Pieces of caps and stems of irregular sizes and shapes, which do not conform to any of the foregoing styles and are predominantly cut or broken portions of the caps and stems and may contain units of any of the foregoing styles | | |
| Ingredients | | Mushroom, Water, Salt, Citric Acid, Ascorbic Acid. | | |
| Packaging | | 3 - pieces welded tin can | | |
| Packaging Dimension | | Metal Can | | |
| | | 211 x 212 | 300 x 400/407 | 603 x 700 |
| Product Weight (gram) | Net Weight | 200 | 400 | 3000 |
| | Drained Weight | 113 | 227 | 1927 |
| Salt Level | | 1.4 - 2.6 % Brix | | |
| Thickness | | 4 - 8 mm | | |
| Colour of Mushroom | | Optimum is # 3 on Standard USDA Color Guide. Not to exceed average > #4. No more than 10% > # 5 | | |
| Flavour | | Shall have a normal flavour and odour free from flavours or odours foreign to the product. | | |
