Establish 1978 under the name of
PT. PANGESTU GUNA GLOVES,
1990 under the name of
PT. SASMITA ABADI GLOVES,
also established

PT. Sasmita Abadi Gloves is a global leader in glove manufacture industry. We are manufacturing gloves in many different shapes, models and using various type of materials. Our products include gloves from 100% Pure Cotton, Polyester-Cotton mixture and include products like PVC-dotted gloves, Terry gloves, and Cut Resistance gloves.

We are Indonesia's first manufacturer to export industrial gloves. Our export destinations include countries like the United States of America, European countries, Japan, Singapore, India, and Middle East. Our export experience brings confidence to expand our market.

We emphasize on high product quality with competitive price and good service. The key to our high quality is that we produce our own cotton thread. Our factories run under our technicians direct supervisions, ensuring stringent quality control so that our gloves achieve or exceed the quality objectives demanded by our customers including weight, size and color uniformity.

BUSINESS OBJECTIVES

We try hard to form strong relationship with our customers. We try to satisfy all of our customers needs for standard products as well as special-order products by providing custom packaging and labeling as requested by our customers without sacrificing product quality. We also try to respond to all customers inquiry within the same day and to deliver product sample to our customers within a day. We believe that speed and accuracy will strengthen our business relationship with you. We maintain to contact with our customers to understand the latest trends in the industry and to be better able to listen to our customer's needs.

“ To become the leader in gloves manufacturing by continually improve our product quality, offer competitive prices and maintain good delivery schedule to compete in global market. ”
