ACCESSORIES

Are you a pleasure seeker? Do you want to find your own pleasure by decorating your lovely home? Let's grab our accessories and see how satisfied you will be seeing those accessories complement the beauty of your home.

THE WORLD'S IN OUR HAND

Being trusted by our customers for more than 17 years encourages PT. Antex Jaya Exim, a credible world-class exporting furniture company, to expand its wings globally. Having and chanting "Honesty is our pride, On-time delivery is our priority" as our foundation and "The world's in our hand" as our motto inspire and motivate our company to always serve our customers with only the best and qualified products in a very competitive price which will be delivered on time.

As the leading furniture company from Indonesia, we keep on improving our service day by day for the sake of our customers' satisfaction especially in innovating our products' collection. Therefore, we fulfill every desire of our customers by giving various ranges of both outdoor and indoor products. We provide wide-ranging of handicraft, natural wicker, and PE rattan products to

accomplish your need as well. Not only that, we also serve furniture products for restaurants, resort, hotel projects, and etc. In addition, we proudly guarantee you not only giving the qualified products, but at the same time we offer the certified products. We verify the strength, balance, construction, and durability for every detail of our products with ISO and EN581 certification before being distributed world-wide. In other words, we guarantee that all of our products are good and worth using. Above and beyond highlighting the quality of the products, PT. Antex Jaya Exim actively takes part in supporting natural preservation by using only legal wood for our production. SVLK (Wood Legality Verification System) certification which is also a mandatory rule from Indonesian government is one proof of our consciousness toward natural preservation. Not having this SVLK certification means not being allowed to send the wood products overseas. Besides, SVLK is recognized and required by many countries in the world in European and US which are importing Indonesian's wood products to certify the legality of the woods.

Lastly, we do not say that we are the best furniture company, OUR CUSTOMERS DO. Learn more about our company, have a look at this catalog, get our products, and at the end you will say the same thing that our customers say.

A MUST HAVE TREASURE

Hey, outdoor furniture admirers? Selecting wooden furniture which has high durability, strength and good quality is quite hard, right? Well, if you know about Indonesian teak garden furniture, you will no longer have that difficulty in getting the best and most durable furniture for your garden. I see, you seem to have other questions. Are you now thinking why it has to be teak and why it has to be Indonesia?

Here come the honest answers for you. Above all, who doesn't know Indonesian teak wood? Oh, come on. Indonesian teak wood furniture is well-known because of its quality. It is beautifully designed, long-lasting, eco-friendly and durable. Its durability is higher than other woods like mahogany and pine since it is much harder than those types of hard woods. Talking about teak wood's durability, we will directly discuss about teak wood's natural oil in its heartwood which makes the teak wood is highly water resistant, protects from decay, bacteria and insects. Other plus points from buying Indonesian teak wood are there is no limitation of its designs or choices and of course it has a very competitive price. I believe that you love this competitive price. As you can see, those characteristics which are only found in teak wood attract people in using teak wood for countless types of furniture. Basically, teak tree is found in Southeast Asian nations.

However, the main teak producer is Indonesia which is very well-known for its highest quality in the world and its central government's seriousness in cultivating and conservation the teak tree. This seriousness leads Indonesia to have many teak trees to be cut and at the same time is replaced by a new one. The central and largest of teak plantation of Indonesia is in Java where its geography and weather are greatly suitable for the plantation. The government even controls the cutting down process of teak trees. Only mature trees are cut down to get good quality of wood and for the sake of reforestation. Essentially, the older the teak tree, the better and more qualified its wood. Moreover, the government does not only take care of the plantation, but also the distribution of teak wood by issuing the SVLK certification to make sure the legality of the teak wood from Indonesia.

So, my question is "What are you waiting for?" Get the best quality of Indonesian teak wood from our company right now.

THE UNSTOPPABLE ANTEX JAYA EXIM

As one of the leading garden furniture manufacturers in Indonesia, PT. Antex Jaya Exim, which routinely exhibited in SPOGA GAFA and other fairs such as IMM, IFFS, and LVM, confidently expands its wings wider. Although our main products are outdoor furniture products, we joined our first International fair at IMM, which more focused on indoor furniture. After that, we joined SPOGA GAFA with outdoor furniture products as the focus. Since then, we routinely join SPOGA GAFA to expand our market. Not only exhibiting at SPOGA GAFA, we also met with the Indonesian Embassy in Germany. After our success conquering Europe market, we tried to reach Asian market by exhibiting at IFFS in Singapore, since Singapore is the most strategic place in Asia to have the business with. Our great success in IFFS made us confident to exhibit at Las Vegas Market Winter Season 2016 as the only delegation of Indonesian Trade Promotion Center Los Angeles which is under Indonesian Trade Ministry. The Deputy Director of Indonesian Trade Promotion Center, Mr. Danang Prasta Danial, visited us in our booth.

Our great success in Las Vegas Market Winter Season 2016 last January, made Indonesian Trade Promotion Center LA invited us again to exhibit at LVM Summer Season 2016 which was held on July 31 - August 4, 2016. Amazingly, we got great excitement from the customers there. We are really glad that the customers responded positively toward our products. Their positive comments and impressions toward the quality of our products have led us to have strong, mutual, and long term cooperation.

Not easily being satisfied with the great achievement after exhibiting at Las Vegas Market, PT. Antex Jaya Exim is more eager to reach its motto "The world's in our hands".

Here is the list of our International fairs that we ever joined:

- 2010: - IMM 2010, Germany
- SPOGA GAFA 2010, Germany
- 2011: SPOGA GAFA 2011, Germany
- 2012: SPOGA GAFA 2012, Germany
- 2013: SPOGA GAFA 2013, Germany
- 2014: SPOGA GAFA 2014, Germany
- 2015: - IFFS 2015, Singapore
- SPOGA GAFA 2015, Germany
- 2016: - LVM Winter Season 2016, US
- LVM Summer Season 2016, US
- SPOGA GAFA 2016, Germany
- Casual Market Chicago, US

For us, joining the fairs is not only to promote the products, but also to keep in touch with our great customers around the world. So, we do an extra mile by joining Casual Market Chicago 2016. By having great International experienced and professional people inside, PT. Antex Jaya Exim is ready to help and serve you. Wherever you are, we will reach you out.

Having cooperation with us means you are in the right hands. Never stop doing our best, never stop keeping the good quality, and never stop being consistent has made us to be the trusted company. It's not easy for us to be in this position but every obstacle that we faced has made us become stronger and more skillful in reaching our success. At last, we do not say that we are the strongest company, but our consistency will bring us to be the unstoppable Antex Jaya Exim.

Spoga Gafa 2015 - With General Consulat of Replubic Indonesia in Frankfurt, Mrs. Wahyu Hersetiati and team.

IFFS 2015

IMM 2010

LVM 2016 (Winter Season) - With Deputy Director of Indonesian Trade Promotion Center LA, US, Mr. Danang Prasta Danial.

OUR CEO'S SAYING

Our company was built by a professional management therefore our priority are self and work-discipline plus a profound interest and attention toward our customers.

This company has been running for more than 17 years and we had been successful in surviving when the global crisis happened even we had many business cooperation with numerous customers at that time. The key of this success is our company's commitment that always tightly holds with the motto "our customers are our best friends and at the same time our business partners who need to be respected and served well".

Last but not least, honesty, good quality and innovation are our commitments towards those who trust our company as their business partners.

Khoe Paul Sugijanto
CEO of PT. Antex Jaya Exim

SNEAK PEEK

It's been some years CAFOM works with PT. Antex Jaya Exim to fulfill customers' demand in France area. We are satisfied with the products. Communication is always good and runs really well. We can't wait to start new season with bigger volume with Antex.

Marco Rodriguez
Cafom Sourcing Representative Office - South - East Asia

With UNOPIU team - Italy

GRADE

We provide three types of grades for you as the answer for your demand of qualified wood. Those grades are premium, finishing, and standard. Learn about the characteristic and gorgeousness of each grade and match it with your own style, desire and preference.

Longing for natural beauty of the wood? Premium teak grade is taken from the inner part of the tree, has only a fine-sanding treatment and gives natural golden brown color. In addition, high natural oil contained in teak wood, makes the teak wood is resistant in repelling insect and extreme weather. The best answer for your question, isn't it?

PREMIUM

There is no more fear of having spilled drink and food's stain on your furniture if you choose our types of finishing – water-based, teak look, and color wash finishing. You can simply wipe it with moist/wet cloth when it gets dirty. Furthermore, it will not give any bad effect toward the furniture since these finishing help stabilize the furniture toward its environment. The natural, bit glossy, and range colors from this grade will perfectly seize your days.

FINISHING

Do you want to be competitive in your market by having qualified wood with cheapest price of our collections? It is no longer a fantasy; our Standard grade with its distinctive brown and white colors which are left naturally and treated by fine sanding only is the right choice for you. This standard grade absolutely does not mean that it has poor quality, it has good quality and it has been adored by the customers because of its competitive price.

STANDARD

EFFORTLESS BEAUTY OF OUR FINISHING

Having problems with not only water but also with tough stains such as curry powder and spilled juices on your wooden furniture? I bet our types of finishing will surely overcome your problems in the simplest way, ever.

Why should we have finishing products? Finishing on wooden furniture can help the product stay clean, stable, and it can also add the beauty of its appearance. There are many types of finishing depend on degrees of protection, durability, and ease of application. We proudly present our great finishing which are water-based, color wash, and teak look finishing. Previously you may already know about our water-based finishing which is rejuvenates and can enrich the beauty of your furniture and also prevent dirt to build-up. Now, we introduce you to our teak look and also wash finishing. It's actually quite similar with our water-based finishing, what make them different is just the way to process it. Our color wash finishing is type of finishing where the wood is still clearly visible. It offers you almost vintage effect. In addition, it allows us to decide which level of transparency that suitable with our furniture products.

In short, all of types of our finishing make cleaning so much easier, reducing stresses and also stabilizing wood. At the same time, it protects the wood from degrading and it surely improves its longevity.

ALL ABOUT EN 581 AND ISO

We proudly announce that we have EN581 and ISO based certifications which are international standard tests for furniture. These certifications help us to complement the technical specifications of products and services. They also help to reassure our consumers that every single of our products is safe, efficient and good for the environment. At the same time, they reassure about every product's strength, durability, and stability as well.

These International standard tests support us in improving the quality of our products, and enhancing our customers' satisfaction. As these tests are international tests and adopted by many governments, by assimilating these standards tests as national regulation, Indonesian government helps to ensure that requirements for imports and exports are the same the world over. Therefore, these tests prevent the trade barriers and open up global market.

To put it simple, these certifications can be a useful tool to add our company's credibility, by signifying that our products or services meet the expectations of our worldwide customers.
