# PREFACE

Growing with the best selected material, INDOKOM GROUP - Coffee commits to come to the coffee world and responsible to support our honor customers with guaranteed high quality coffee and trust. We build up Good Cooperation and maintaining excellent product and good service followed by building good relationship among Supply Chain including the Farmers and Customers involved in it, visiting the coffee plants and giving information to coffee farmers, such as how to make the right coffee process and giving guidance for what should do for getting the best selected material & to comply with the requirements of customers and in achieving the satisfied and traceable coffee for our customers and increasing the prosperous life for the farmers.

The other importance factors in maintaining high quality standard is Strict Quality Control. We always examine the coffee beans in quality factors such as Moistness, Defect Level, Beans Size, Appearance and Cup Tasting before deciding material purchase, during the coffee processing until the coffee ready for delivery by our expert Quality Control with Coffee Cuppers licensed Q-Graders.

In increasing our sales and fulfilling the coffee demand, we facilitate our production with the high innovated machine and We have been supplied the customers with the wide range coffee from Indonesia and for further satisfaction development to prove our commitment to our valued customers, we come to the coffee world with Specialty and Certified Coffee which has been inspected and certified by Indonesian Coffee and Cocoa Research Institute, UTZ Certified, Organic USDA/NOP, EU & JAS from Control Union and also Rainforest Alliance Certified.

These coffee products could be traceability as our service development to coffee world to achieve the prosperous life among supply chain to whole people in whole word.

Various efforts in quality control purposed to gain and create a chain that is well integrated in the coffee world and ultimately create wealth for coffee farmers in particular.

***THE RIGHT SOURCE TO GET INDONESIAN  
ROBUSTA & ARABICA MOUNTAIN COFFEE***

Saimi Saleh  
*CEO of Indokom Group*

Indonesia is the rich country where all things can be found in it. Coffee is the part of history and legend, the oldest exotic plantation crop cultivated in Indonesia with coffee Arabica, Liberica and Robusta.

It was introduced at the turn of the seventeenth century and growth first at Batavia ( Jakarta ), the place known as Pondok Kopi now, then spread into many others region in Indonesia - Java, Sumatra, Bali, Sulawesi, Flores and Papua.

Java Coffee was the most popular and the best coffee in the world at that time and now Indonesia become the only one coffee producer in the world that have many specialty coffee in the world, such as Java Coffee, Gayo Coffee, Mandheling Coffee, Toraja Coffee, Bali-Kintamani Coffee, Flores Coffee, Prianger Coffee and Papua Coffee.

## AS PART OF INDOKOM GROUP - COFFEE
