OUR PRODUCTS

WE ARE DOING:

- ✓ BMI are Indonesian manufacture and Export of **Wood Pellet**, Wood Chip, Sawdust.
- ✓ Our Product made from a natural and renewable material.

WOOD PELLET USES

- Biomass: Boiler fuel
- Pellet Stove
- Animal Bedding

OUR SPECIALITY

BMI produce Wood pellet product for **Biomass** and **Animal Bedding** product. BMI are using 100% renewable raw natural materials.

BMI are focus on *Albizia chinensis* "sengon albasia" which material is very good for animal bedding and biomass. BMI get raw materials from the suppliers according to quality, evident source and continuously supply.

OFFERING

The capacity production of wood pellet that we can offering is around from 100-2000 tons/month. BMI routinely conduct surveillance and quality control reviews of the wood pellets we have produced.

The wood pellets will be packed in Jumbo Bag, sack, or bulk on container. BMI keeps the best quality product by given costumers to get sample wood pellet, raw material, check processing to get best experience.
