

MAISON DECO.ID

**COMPANY
PROFILE**
2020

OUR STORY

We founded this company about 4 years ago starting with 10 employees who have long experience in the field of wood and have us divide our employees according to their specialties. Over time and starting to increase demand for our products, we expand our factory and adding employees so now we have a total of 40 employees. With our factory area which now reaches more than 1.5 Ha, divided into several areas according to our production process.

Mainson Deco.id is our new brand to expand our market throughout the world.

RAW MATERIAL

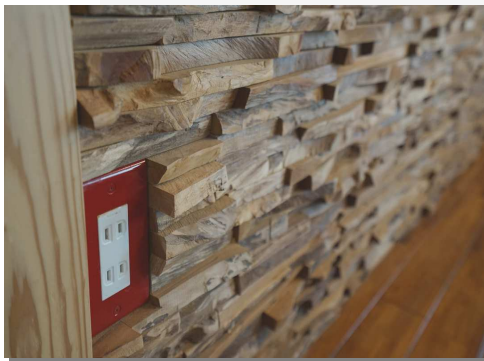

Starting with the raw materials we use comes from East Java and Central Java in Indonesia, the material we use is teak root which has undergone natural processes for more than 100 years, We bring in raw materials from 4 different places to meet the high production with quality and age of wood according to the standard that we have been using in terms of raw materials.

PROCESSING

After the raw material arrives at our processing site, we will then carry out the cutting and measurement very carefully and thoroughly. Although we go through a manual process, cutting and measuring thickness and as one of our priorities apart from the selection of raw materials that will definitely survive in all weather ready for use.

PROCESSING

One of our main products is Erotic Teak Skin, why we call it Erotic Teak Skin because we use the outer of our wasted old teak material whose surface is formed by natural processes. We also use the inside of our raw materials as one of our superior products, which we call Rustic Teak Wood. Rustic products can be used as wall cladding or as flooring, both indoor and outdoor without worrying about changes in weather or air temperature.

PACKING & SHIPPING

Shipment available in form of containers with 2 sizes:

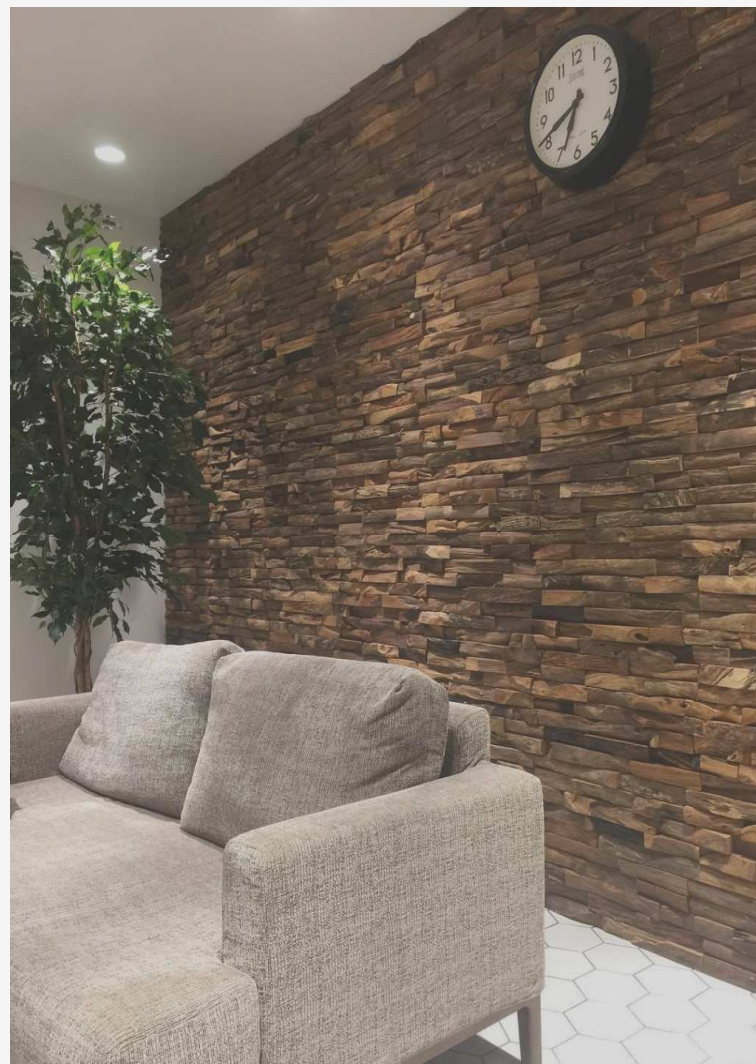

- 20 feet
- 40 feet

and the packaging that we use is a pallet and of course we arrange it neatly to maintain the quality of the goods.

Estimated time to load all goods into ex.20 feet container is 1 day, this process we do with several shipping companies that associate with us.

PRODUCT
CATALOGUE **2020**
