INTRODUCTION TO LEAGUE

League entered Indonesia's footwear industry in 2004 and quickly gained a reputation as a premium brand for its quality footwear, apparel and accessories for men and women, everyday athletes to active-lifestyle enthusiasts.

We have more than 20 years of design, manufacturing and retail experience behind us, including working with some of the world's most valuable sports brands such as Nike and Puma. The core of our products lies within our stylish yet functional footwear line, which includes a fantastic collection of running, futsal, basketball and lifestyle shoes. Our factories are world class in regards to technology, safety & sustainability. Our initial establishment as the exclusive licensee and distributor of international footwear to over 90 countries around the world meant that we are used to meeting these standards.

Overseeing thousands of workers, our factories have set high safety standards with zero accident reports, advanced fire emergency response programs, as well as contractor and maintenance safety programs. Since sustainability is important to us, we have implemented a series of programs such as waste and hazardous waste management, energy conservation, and the 3R: Reduce, Reuse, Recycle programs.

OUR TECHNOLOGY

We work closely with local and international athletes and sports enthusiasts from concept development to delivery of the final product. Assisted by forward-thinking designers from Oregon, USA, we employ international standard technology and research development in the precise construction of each product.
